S.R. _____

RESOLUTION

BE IT RESOLVED, BY THE Senate of the State of Texas, that Senate Rule 12.03 and 12.04, be suspended in part as provided by Senate Rule 12.08 to enable consideration of, and action on, the following specific matters which may be contained in the Conference Committee Report on House Bill 1.

1. Format Changes

For each agency and institution of higher education, the Conference Committee Report moves the informational item entitled "Supplemental Appropriations Made in Riders" from immediately following the "Schedule of Exempt Positions" to immediately after the grand total of all appropriations made in strategies.

For each general academic institution, service agency, health center, health science center, technical college and system office, the Conference Committee report combines all strategy appropriations into one single appropriation with the individual strategies shown, for information purposes only, as the first rider in the institution's bill pattern. This format change does not affect the amount of appropriations to any institution or the method of financing any institution's appropriations.

In the event that revenue collections and/or available fund balances out of General Revenue-dedicated accounts, Other Funds, and Federal Funds are insufficient to allow for the transfer of appropriations from fiscal year 2013 to fiscal year 2012 for the state's share of health insurance contributions, the Employees Retirement System may temporarily utilize General Revenue funds. The transfer and reimbursement of funds shall be made under procedures established by the Comptroller of Public Accounts to ensure that borrowed funds are reimbursed to the Treasury on or before August 31, 2013.

- c. the incentive program to waive participation in the Group Benefits Plan (Opt-Out).

In no event shall the total amount of state contributions allocated to fund coverage in an optional health plan exceed the actuarially determined total amount of state contributions that would be

required to fund basic health coverage for those active employees and retirees who have elected to participate in that optional health plan.

During each fiscal year, the state's monthly contribution shall be determined by multiplying (1) the per capita monthly contribution as certified herein by (2) the total number of full-time active and retired employees enrolled for coverage during that month.

For each employee or retiree that waives participation in the Group Benefit Plan and enrolls in allowable optional coverage, the Employees Retirement System shall receive \$60 per month in lieu of the "employee-only" state contribution amount, and such amounts are included above in Strategy B.1.1, Group Insurance Contributions. The waived participant may apply up to \$60 per month towards the cost of the optional coverage.

Each year, upon adoption of group insurance rates by the Board of Trustees, Employees Retirement System must notify the Comptroller, the Legislative Budget Board, and the Governor of the per capita monthly contribution required in accordance with this rider for each full-time active and retired employee enrolled for coverage during the fiscal year.

It is the intent of the Legislature that the Employees Retirement System control the cost of the group insurance program by not providing rate increases to health care providers participating in HealthSelect during the 2012-13 biennium.

- (3) Consolidated Waiver Program: 200 percent of the reimbursement rate that would have been paid for that same individual to receive services in a nursing facility, or 200 percent of the estimated annualized per capita cost of providing services in an Intermediate Care Facility/Mental Retardation (ICF/MR), as applicable;

- (2) Out of funds appropriated above, the department shall use general revenue funds to continue to provide services to a person who was receiving medical assistance waiver program services on September 1, 2005, at a cost that exceeded the individual cost limit specified in the medical assistance waiver program, if:
 - (i) federal financial participation is not available to pay for such services; and
 - (ii) continuation of those services is necessary for the person to live in the most integrated setting appropriate to the needs of the person.

Readiness, \$3,000,000 shall be used to establish a statewide program to create and deploy modular courses to improve college readiness, reduce the need for developmental education, and improve student success, to be developed by a consortium of universities from multiple university systems and community colleges organized by the University of Texas at Austin. The courses would incorporate college readiness assignments based on the state college and career readiness standards that have been developed and field tested by faculty and instructional support staff from Texas A&M University, the University of Texas at Austin, public junior colleges, and public school districts. The courses should use diagnostic assessments and advanced technology to determine student's specific needs, include open-source instructional materials, include professional development institutes and online resources for instructors, and incorporate the best available research about how students learn complex material. The courses may be designed so that they can be deployed as dual credit courses. Any unexpended balances remaining as of August 31, 2012 are hereby appropriated for the fiscal year beginning September 1, 2012.
